**Statement of Vision and Interest**

With my experience, I feel I can competently serve as a Director for the organization and utilize my expertise to help the organization continue to provide much needed health benefit products and services to the local community. Ensuring appropriate and affordable products are available to organizations and individuals is important in helping improve health outcomes in line with the mission of the organization. Helping lead a co-operative organization like the MFABC, I see many parallels, and understand the benefit and value of unique not-for-profit organizations like Pacific Blue Cross. I would very much like to play a role in the continued success of the organization.
